# Your wedding adventure

You've decided you like each other enough, and your individual brands of weird match enough to try this whole "forever" thing. And that's one of the wildest and most amazing adventures you're going to go on!

We've got over a decades experience of being married to each other, and can definitely say it's one of the most awesome adventures you can go on together. 10/10 recommended.

# How we shoot your day

Weddings are amazing, and intense, full of emotion, and wonderfully crazy. So much happens in such a short space of time that you're bound to miss loads of it. And that's where we come in...

We shoot your day in the same way we would a dear friend - with love, compassion, kindness, and lots of stoke. We want to tell your story in a way that is as true as it can be. So we don't stage manage, overly pose you or get too up in your faces.

Our goal is to document your real, unscripted moments as they unfold through beautiful, artistic images. We want you to look back at your photos on your first wedding anniversary, and on your fiftieth, and be transported back to the emotion, feeling and energy of that day.

# Your experience

We are here to help make your day as awesome as possible!

All our packages are fully customizable as not all weddings fit perfectly into a package. We have shot a 1 hour to 16 hour weddings, so speak to us about how we can create something awesome for you. We have no photo limits and restrictions so that you as a couple can get the most out of your story experience. This means we give you all your high res images, which for a full wedding day is anywhere from 400-1000 photos. These are your pictures and memories. So, no water marks and no hidden costs.

There are no added travel costs or any other hidden expenses.

Depending where your venue is we may need somewhere to crash for a night or two, but we can chat about that over coffee or a beer.

We think it is super important to have a good sit down chat with us before your wedding, both to get to know us and to feel more relaxed having us around on your day. We include a complimentary Zoom date with all of our packages so we can all get to know each other.

We are two photographers, with two unique visions and styles of shooting. You get to choose if you want one or both of us with you on your day. We're both pretty awesome to have around (even if we say so ourselves) and are great at keeping things chilled and fun on the day. We are your added wedding party bestie, cheerleader, and helping hand.

What we do is so much more than take pictures, and we take that very seriously.

## Wedding package options

Our packages are always a jumping off point to curate a package perfect for what you want. So view these as a guide to what we offer. You can either take one as is - which is often easier - or we have a chat together to create something that works for exactly what you babes want.

# Video

Having pictures of your special memories are pretty epic, but adding moving pictures is an extra kind of magic!

## Our approach to video

We've noticed that a lot of wedding videos kinda just look the same, a bit slow moving, and don't really have much of the couple's personality in them.

When we decided to also offer video, it was super important for us to carry the way we photograph weddings into how we film them too.

## The Full Video

This is our epic **full experience** that includes **3 videos**, a **60 second IG trailer**, a **6-8min feature film** and a **full hour edit** that includes the ceremony in full, speeches and your first dance.

£2,100 / 2,400€

## The Music Video

This is our epic **3 minute highlight film** that tells the story of your whole day, with an edge. Weddings are fast paced, happy as hell, and full of awesomeness! And these music videos are all about this energy.

£850 / 975€

# Destination Weddings

We spent 3 years of our business solely shooting destination weddings and have shot on 5 continents, on beaches, jungles, sand dunes and cities all over the world. We know what works and have made packages tailored with this in mind. All packages include all travel, to help keep things simple for you.

## All the Fluff and Good Stuff

## Engagement & portrait sessions

These sessions are a great chance to get the feel for having your love documented and to get to know us a little bit too.

This is a great add-on to your wedding story, but can also just be taken as an adventure on its own if you are already married, or just want some beautiful pictures of you two as a couple. These sessions are perfect chance to let us document you in a place you love, doing something you love, or just being in love. This could be hanging out at your favourite coffee shop, going for a trail run, chilling at home. Anything. It's your story. At the same time, if you don't have any set idea or plan, we are more than happy to come up with a beautiful and special location to make you some incredible pictures.

## About us

We are Andy and Szerdi, Hackney based London wedding photographers, adventurers & story-tellers. We love the shit out of weddings and getting the chance to share these amazing adventures with people. Letting people in to share something as intimate and personal as a marriage is a really big deal and it makes us really stoked that people trust us enough to make their memories.

We met at a music festival, bonded over our shared love of creepy art and weird philosophy and after a few years of world adventuring, we now find ourselves 10 years deep into this whole marriage thing. Honestly? We couldn't think of a better outcome for losing all your friends mid music festival.

We love how no two weddings are the same and, through really getting to know our couples, we try to ensure that the way we document them is a true reflection of who they are – which for us is hands down the most important part of what we do. We are documentary story-tellers with a Fine Art twist and we love to find the balance between catching all the beautifully emotive, unposed, and fleeting moments of your day, while at the same time creating some beautiful timeless art with a more considered side. We freaking love love!
